EXPERIENCE

Melbourne Academic Games, Play and Interactive Entertainment	Feb 2024 – Sep 2024
<i>Student Volunteer, Melbourne, Australia</i>	
- Collaborated on the creation of promotional materials and supported research-related inquiries and discussions. - Presented an original 3D game developed in Unity, showcasing core systems including character movement controllers, interactive obstacles, collectible mechanics, particle effects, and custom shaders using CG/HLSL. - Led engagement activities for over 100 attendees, including game designers, academics, and industry professionals.	
South Street Burger, <i>Crew Member,</i> Toronto, Canada	Jan 2022 – Dec 2022
- Delivered fast, friendly service to an average of 100 customers per shift in a high-volume, fast-paced environment. - Handled customer complaints professionally, ensuring guest satisfaction and resolving issues quickly.	
Treasury Analyst, <i>Ping An Insurance,</i> Wuxi, China	Jun 2021 – Nov 2021
- Collaborated with cross-functional teams to resolve escalated client issues, prioritizing tasks under tight deadlines. - Analyzed database of client accounts and operations using PivotTables and VLOOKUP in a detail-oriented manner. - Designed interactive dashboards in Tableau, integrating charts with R to present data and uncover key insights.	

ACADEMIC PROJECTS

InkSight XR Reading Prototype	Jul 2024 – Nov 2024
- Led user research with 15+ participants, developed an XR reading prototype using Figma, ShapesXR, and Unity. - Conducted user evaluations and usability testing across iterative cycles to enhance the designs and functions. - Showcased at the 2024 Endeavour Exhibition, gaining 20K+ views on social media and 100+ People's Choice votes. - Co-authored a research paper accepted for presentation at AMCIS 2025, receiving positive reviewer comments.	
VRIFamily Charity Aid Services IT System	Feb 2023 – Jun 2023
- Developed an aid management system using Scrum to optimize SDLC efficiency and ensure on-time delivery. - Conducted a comprehensive stakeholder analysis, prioritizing 27 user stories across 10 functional areas. - Identified potential risks using severity-impact analysis, defining triggers, and implementing response strategies. - Implemented system features in WordPress, reducing operational overhead from 30% to below 10%.
